CAREER OBJECTIVE:

Computer engineer focused on web development, currently working as a Front-End developer. Seeking opportunities to apply and grow my skills and to contribute to the advancement of the field.

KEY COMPETENCIES:

- Detail-oriented
- Troubleshooting
- Problem-solving
- Accountability
- Communication

EDUCATION:

- Beirut Arab University, B.E. in Computer Engineering 2019 – 2023
- Nouvelle Ecole Des Freres, Baccalaureate II in Life Sciences May 2019

WORK EXPERIENCE:

Mobile Arts, Front-End Developer – Beirut November 2025 – Present

Enterprise Web & Mobile Technology Solutions.

- Developed scalable, high-performance ReactJS and Wordpress websites, delivering responsive UI and smooth animations using Framer Motion.
- Optimized application performance by applying React best practices, improving load times and reliability for high-traffic platforms.
- Implemented secure frontend practices, including input validation, secure API integration, authentication handling, and protection against vulnerabilities (e.g., XSS, data exposure).
- Collaborated closely with backend teams to integrate REST APIs and AWS Lambda for scalable, serverless functionality.
- Improved SEO performance across multiple websites, increasing technical SEO scores to 85+/100.

HoldoCo Corp, ERP Full-Stack Developer – Beirut June 2025 – November 2025

Leading Tech and Management Consulting company.

- Developed and customized ERPNext modules to meet specific client needs using Python and Frappe framework.
- Integrated React.js for building responsive and user-friendly frontend components connected to ERPNext backend via REST APIs.
- Collaborated closely with project managers and end-users to gather requirements and deliver tailored ERP solutions.
- Worked on customizing DocTypes, scripting business logic, and implementing custom reports and print formats.

Alpha Technology Group, Front-End Developer Intern – Beirut June 2023 – September 2023

Provides digital development services to clients and agencies.

- Converted Adobe XD files to HTML/CSS using best practices.
- Developed a React JS version of the admin panel using Web APIs.
- Applied CSS fixes to a client website regarding styling issues and bugs.
- Collaborated with the QA team for UI fixes resulting in an improved and consistent user experience.

Touch | The Leading Mobile Operator in Lebanon, Call Center Support - Beirut

August 2022 – April 2023

- Addressed and resolved over 12000 customer complaints empathetically and professionally.
- Managed customer calls effectively and efficiently in a complex, fast-paced, and challenging call center environment.
- Used active listening skills to ensure that every customer's issue would come to a resolution.

TRAINING:

On-Ramp Academy, Software Developer Training Program - Beirut

April 2024 – August 2024

Implemented by Forward Mena in partnership with LIFE Lebanon.

- Understood the inner workings of databases and their best practices.
- Built advanced and optimized APIs.
- Developed advanced and optimized web applications using ReactJS.
- Applied cybersecurity and writing secure applications.
- Gained proficiency in the architecture of modern software and the 101 of cloud computing.
- Used Git and GitHub for version control and streamlined development cycle processes.
